At a Glance

Product Design Manager with 10+ years of experience as a designer and 5+ years leading and scaling design teams across complex, large-scale platforms. Proven at unifying fragmented systems, translating business strategy into clear product experiences, and delivering measurable revenue and operational impact across media and ad tech.

Experience

Product Design Manager
Ad Platforms | The Walt Disney Company | New York, NY | 2021 - Present

Scope & Leadership

/ Lead and mentor a team of 8+ product designers across multiple large-scale, interconnected platforms.

/ Set design strategy in close partnership with xfn partners i.e. product, engineering, sales, and data.

/ Own hiring, performance management, promotions, and career development.

/ Presentation of product and design strategy to senior leadership.

Platform & Product Impact

/ Led design for a self-service platform enabling customers to independently plan and manage campaigns, targeting $150M+ in incremental revenue.

/ Unified fragmented internal tools into a single operational platform, reducing friction across setup, compliance, and execution.

/ Designed automated order and workflow systems that reduced manual errors and improved speed and reliability.

/ Drove platform evolution toward toward automation and scalable marketplaces.

Outcomes

/ Reduced key workflow times by up to 95%.

/ Improved advertiser ROI and decision accuracy by 30-40%.

/ Drove adoption of shared design systems, reducing UX debt and rework.
